Billy Green was a guitarist and composer active from the 1960s on in Australia, who frequently worked with singer Doug Parkinson. His bands included Surf City, The Epics, The Questions, and In Focus, which became Doug Parkinson In Focus.

Below is Johnny Dick, Duncan McGuire, Billy Green and on the right, Doug Parkinson.

Billy Green doesn't appear at the moment to have his own wiki and apparently later in life he changed his name to Wil Greenstreet. However there is detailed information on Doug Parkinson at Milesago, here, which includes incidental information on Green. Parkinson's wiki is here.

Green appeared in the film as the character 69, occasionally playing his guitar while doing
